

**REMARKS/ARGUMENTS**

The Amendment proposed herewith is submitted in response to Notice of Allowance mailed September 22, 2006. No new matter has been added to the specification as a result of this Amendment.

In an Official Action dated January 9, 2006, the Examiner stated that claim 5 although objected to included patentable subject matter. Claims 6 and 7 were allowed and claims 1, 3 and 4 were rejected. In response to this Official Action, Applicants filed a response on February 21, 2006 where the recitation previously included within claim 5 was included into claim 3. Claim 5 was then cancelled. The Examiner then sent another Official Action dated April 27, 2006 where claims 3, 4, 6 and 7 were allowed and claim 1 was rejected. In response to this rejection, Applicants filed an Office Action response dated August 28, 2006 where claim 1 was cancelled in order to place the application in condition for allowance.

Unfortunately, an error was made at this time. The previously cancelled claim 5 was inserted back into the application and the recitation that was included in claim 5 was also removed from claim 3. Applicants submit this new Amendment to claims 3 and 5 placing the application back in condition for allowance as warranted by the Examiner. Thus, claim 5 is cancelled and limitation previously included within claim 5 is once again incorporated into independent claim 3.

In view of the above, each of the presently pending claims in this application is believed to be in immediate condition for allowance. Accordingly, the Examiner is respectfully requested to withdraw the outstanding rejection of the claims and to pass this application to issue.

If, however, for any reason the Examiner does not believe that such action can be taken at this time, it is respectfully requested that he/she telephone applicant's
